INTERVENTION
with Maynard Monrow & Material Lust
July 12 through August 4, 2019

We are proud to present **INTERVENTION** with Maynard Monrow and Material Lust at The Fireplace Project in East Hampton. Monrow presents neons and a new series of bronze wall artworks he calls "vital signs" - these are poignant, poetic, and critical text based works reflecting current trends of thought, composed by the artist. Material Lust is the partnership of Lauren Larson and Christian Swafford. Dark horse disciples of art and design, Material Lust abides by a Solitarian philosophy, wholly independent of trend, trajectory, or corporate system. Though their work draws on myriad influences, their intent remains sharply focused. Swafford and Larson honor the dignity in the ominous, the grotesque, and the oft-forgotten; pushing the bounds of what deserves to be seen.
